

FLOWTREN D

SMARTER, FASTER FLUID HANDLING SOLUTIONS

FLOWTREN D

Reliable and efficient, Flowtrend is a leading manufacturer of cost-effective, high-quality alternative fluid handling products. Our worldwide network of distributors provides end users with fast delivery and prompt service. Our extensive product program with over 17,000 unique items covers a full range of wear parts as well as a variety of pumps, valves and tank equipment for major OEM suppliers.

All Flowtrend products are subject to pass our ISO 9001 quality control system and meet the material standards for quality in accordance with regional specifications. We value our customer's needs and guarantee a high-quality product that will ship the same day. And all at the lowest price on the market.

Flowtrend's experienced staff of experts and technicians from the world's leading fluid handling providers will help you find the right product—at the right price.

VALVES

Flowtrend has a diverse line of valves to accommodate a variety of operating conditions found in the sanitary industry. From the Flowtrend ARC-R Seat Valve that is well suited for aseptic conditions and high sterilization temperatures, to the Flowtrend 761-R/Flowtrend 741-R available in both divert and shut off, with an easily repairable actuator, Flowtrend offers a full line of high quality valves intended to be interchangeable with the OEM products.

PUMPS

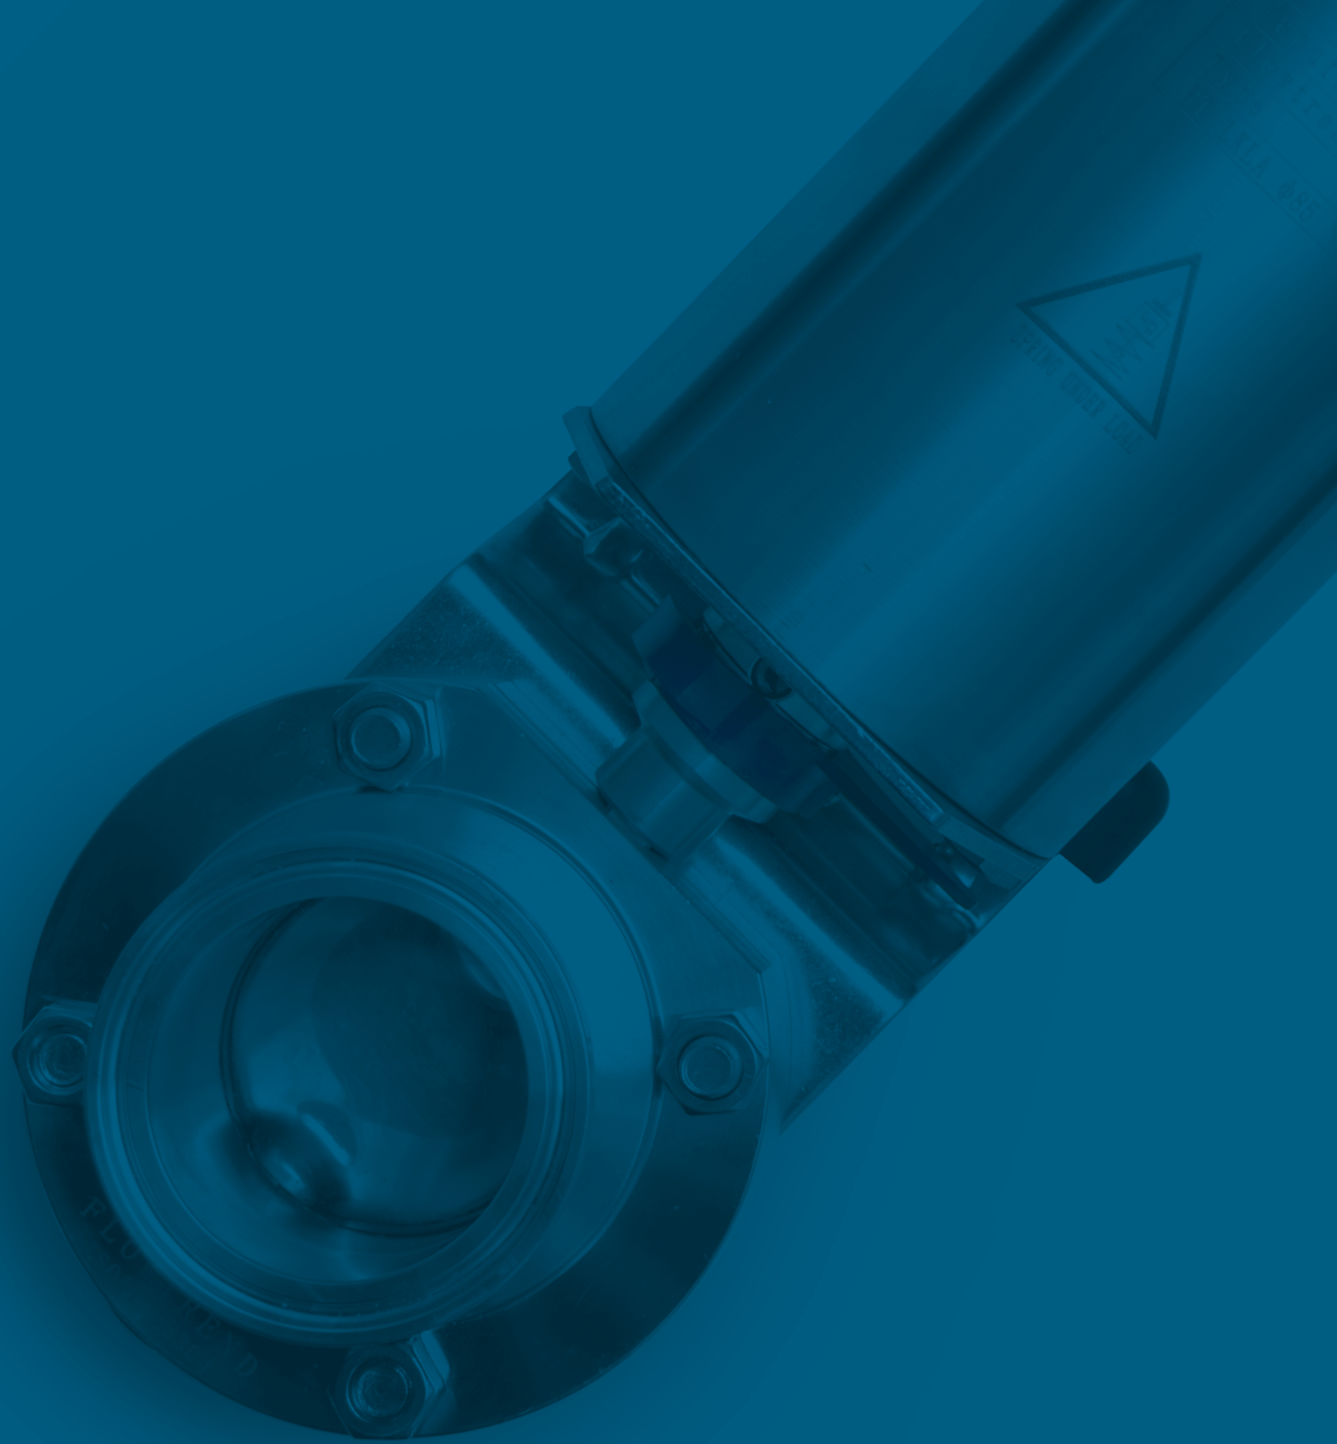

SUPERIOR SERVICE, SUPPORT & TECHNICAL EXPERTISE

The versatile pump series is a workhorse of choice for sanitary applications in the food, beverage, dairy, pharmaceutical and biotechnology industries. The pumps can accommodate a wide variety of liquids and solids under a range of flow conditions and pressures and are perfect when full cleanability and corrosion resistance are a necessity. The pumps are offered with a standard or enlarged inlet with port connections, available to meet various pipe standards.
